PACKAGING SYSTEMS

Case Closing

Case Sealer – ACL

ECO FRIENDLY

Productivity boost in the packaging sector

The ACL folding box sealer from OPITZ glues the bottom or top flaps of your cartons quickly and reliably. Depending on your requirements, we can implement all sealing-variants automatically, whether with consistent or chaotic-changing format sequences. The system impresses with its simple operation and high process reliability. Thanks to its industrial-grade quality, it is perfectly suited for continuous use and can be flexibly expanded with modularly integrable systems.

U-closure
Considered standard and most commonly used

Slit closure
A standard closure is supplemented with a pull-tab

C-closure
Suitable for ultra-flat packaging

Clip-closure
Additional stability for lids or flat packaging

H-/double-T
Suitable for extra heavy cartons weighing 40 kg or more or dustproof requirements
